fsgw.org website & database, provided by Wild Apricot

The fsgw.org website & database are provided by the company Wild Apricot. The database contains contacts (members and non-members), events, event registrations, donations, bulk emails, and all the online financial transactions around memberships, event registrations, and donations.

Wild Apricot has an API (Application Programming Interface), which provides read and modify access to the fsgw.org database from external programs. This API is used heavily by the FSGW Admin Tools.
